The fact is that the Sixth District Agricultural Association is an exercisence on this community. It cumbers the ground and ought to be swept away. Had it not been for the subsidy of State money amounting to some nine or ten hundred dollars annually, the association would have died a natural death years ago, for the patronage of the public has never been sufficient to sustain it. That the money of argpayers of this State should be liverted from the legitimate encourage ment of industry to the fostering of a test of low gamblers and confidence harps—giving them a license to preypon the public in a manner net tolvated at any other time or place, is imply an outrage and a crime. a step leading to a solution of social

LAZARUS & MELZER,

Correspondence of the Turns.!

Lore Brace, Oct. 2.—Long Beach has had a shaking up such as has been experienced in very few towns on this coast. The facts are these: A few weeks ago a man by the name of Pickering opened a saloon about one mile from the centre of the town of Long Beach. Being out of the town of Long Beach. Being out of the town limits, he became very bold in inducing men and boys out to his place of revelry. Among his many visitors was a young man from Visalia, Mo, whose passion for strong drink became uncontrollable. Last week he was kept drunk nearly all the time by this demon in human shape, and on Friday morning he died with an empty whisky bottle under his pillow. Thisso completely aroused the good people of Long Beach that two or three of the women of the W. O. T. U. virited the whole town, rallying the people out to a citizens' mass meeting to be held in the evening. Long before the hour appointed the house was filled with an incensed people who meant business—and after many flery speeches, it was resolved to immediately visit the saloon-keeper and demand of him an unconditional surrender. Within a few minutes nearly a dozen teams and women and about one hundred men and women and about one hundred men and women and about one hundred men and women and the hundred men and women and th 100,000 pounds of Spring at 20@24 cents, and 324,000 pounds on private terms."

A New York dispatch says: "Dealers have ceased investing freely, but there is no increase in the desire to realize. Holders of desirable Wools seem quite willing to carry their stocks to the end of the year rather than reduce prices. Speculators tors look for high prices. Among sales were 220 bales Californis at 21@22c, 6000 pounds scoured Californis at 21@22c, 6000 pounds scoured Californis at 60@62c."

There was not a dividend paid by an Arisona mine in September. The Paradise Valley mine was the only mine in New York 24, HS.

Bose Mice V alley mine was the only mine in Neand demand of him an unconditional surrender. Within a few minutes nearly a deaen teams and wagons were procured and about one hundred men and women visited the place, demanded a light and the opening of the saloon by the now terrified teeper. At once articles of capitulation were read him, which he was only too glad to sign, for while doing so a rope had been placed around the building and several strong men stood ready to level all to the ground had he heeltated another fave minutes. Buffice it to say, by daybreak saturday the contents of the whisky shop stood in the street ready to be conveyed to Wilmington depot, where the committee agreed to carry them free of charge. Although the cost of this experience was a murder most foul, (the death of one young man) yet the people of Long Beach rejotes over the victory won, and now every man, woman and child stands ready to put an immediate stop to anything of the kind should an attempt again be made to run a dram-shop in the vicinity of Long Beach.

Following is a copy of the ctice to quit delivered to Pickering by the committee: "Long Brack, Cal. October 8, 1886.

"Mr. PICKERING—Sir: At a citizens committee meeting held at Long Beach to-night, it was resolved that the assembly wait upon you and request from you a positive assurance that you will immediately coase your pefarious business of liquor-solling and close your saloon by 9 o'clock to-morrow morning; otherwise we, as citizens of Long Beach, warn you that a warrant for manulaughter will be issued at once for your arrest and conviction. Do you promise? If so, sign this paper and we depart in peace."

Pickering signed, and levanted. It is said that he was in Los Angeles threatoning to commence a legal action against his evictors.

All diseases of the respiratory organizated by the Bean system on practice w.i.ch enables us to bring the remedies int direct contact with the disease part. The are in all cases combined with proper or attitutional remedies for the liver; atoms of the strength of the st CONSUMPTION

position to remain passive and idle, a pe-culiar sansitiveness to the effect of cold, and a shortness of breath upon moving quickly or accanding a hill or stairs, a slight, heating cough, with or without expectorstom, flying pains threushout the cheat or book, or under use aboulder blades. The symptoms are worse toward or daring the night; slight faver in the aft-most; cold dee and hands and in many cases blue lividity of the lips and roots of the finger nails.

The more advanced symptoms are wasting of fl. an. diardose, child and fever, night ewests, expectoration of yellow pus from use uncless or cavities in the nings, with or witn-out a depression in the chest, increasing weakness, and at tast a closing up of the air passages of the image, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the image.

or surcesson of the patient for want of lungs.

nere/ofore the treatment of consumption has been very unesti-factory, al. he to both the physicians and their patients; but, inch-liy, since the discovery of the Mean system of practice, a few years ago, thousands of dates have been completely cured, where, had it not been for this spatem of practice, and it not been for this apatem of practice, utter failures to combat the evils of the discase would have continued up to the present time. This system is recommended by the highest authorities, both in Lucce and America. By this means we are enabled to discove the hardened mucus in the lungs, saue the cough, facilitate expectoration, contract and heal uncers and cavities, after allowed fours by the ordinary method is pust. Persons desiring treatment by this system of practice can use the rem-dy at home as well as at our office, and which will cause no monovenience or hindrance to business wastever.

whatever.

I have seen so many of these cases oured that I do not consider any case hopeless unless the disease has advanced to the chest and that both lungs are seriously involved. The Ruhalstions sid us in disolving the muous and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already unred.
